Does Not Meet Spec's.	X		

Comments: McLean County Highway Department has used Crysteel Bodies in the past and has the Experience that Crysteel Bodies do NOT perform in that Frame rails rusted out and past cylinders have siezed. The understructure of a Crysteel bed does not meet specs and bidder failed to indicate installed components as required. No literature was provided to show beds being built in Stainless Steel.

Recommended by Highway Department: Purchase 2 new Dump Bodies and Hoists from Koenig

Mr. Les Wellenreiter, Mayor

Dear Mr. Wellenreiter;

I want to take this opportunity to thank you, the Danvers Village board, and Scott Seniff, your Superintendent for the cooperation and help you provided us last summer and fall when we worked on North Street, County Highway 18 and 55 in the Village of Danvers.

We realize the project took quite a while to do, and also we do have several items to finish next spring.

So that you know McLean County spent $163,500.00 on our contract work with Rowe Construction Company, and another $61,500.00 of our labor and equipment time to complete the project. This doesn't include the investment of $1,300,000.00 on the Danvers--Yuton Road from the school to Yuton. We feel this was money well spent on a project that had been needed for quite some time.

Please let me know if you have any concerns about the project just completed.

Also, you should know that we plan to reconstruct C.H. 53, the Danvers– Carlock Road in 2004. This time frame is subject to our completing the survey, plans, and obtain the necessary Right-of-way from Danvers to Carlock.

It has been a pleasure working with you and especially Scott this year.

Sincerely,

John E. Mitchell
